

# Fun with Frogs: Capturing Observations in Nature

**Presented by John E. Simmons  
and Ashley Rapsinski (CSATS)  
May 23, 2018 (9:00 am – 2:30 pm)  
At Millbrook Marsh Nature Center**

Want to do more integrated activities in your classroom? Do you like to frogs? Fun with Frogs will integrate literature, math, science, technology and the arts using several activities you can take back and replicate in your classroom.

Activities will support using literature to spark student intrigue in science, using scientific techniques, methods of observation, learning about the world around us, the life cycle, and using art to incorporate math and student led science documentation into your classroom.

**This workshop is FREE to all educators with ACT 48 credit available.**

All i-STEAM Workshops are aligned to the PA State Standards. A continental breakfast and lunch are provided by the Center for Science and the Schools (CSATS). Register on-line now to reserve a spot.

**Sponsored by  
The Penn State College of Education  
Center for Science and the Schools  
182 Chambers Building, University Park, PA 16802**
